# Why you should grow your family with Circle Egg Donation

We're invested in you, and your family, and we promise to be beside you every step of the way:

## **Personal experience.**

We are an agency made up of parents, surrogates and egg donors through the program. We've been in your shoes, and we understand what you're experiencing.

**Emotional and legal support.** The decision to use an egg donor is a big one and we promise you'll be emotionally and legally cared for and protected.

**Match options.** Circle provides different types of match options allowing intended parents to choose the option that best fits their family.

**Team approach.** Circle provides intended parents with a coordination team, attorney and accountant to provide support and guidance throughout the process.

**Clinic partnerships.** Circle will work closely with your IVF clinic. If you do not yet have a clinic, we will be happy to introduce you to some of our clinic partners.

## **Additional program benefits include:**

- Circle assists intended parents with all necessary legal work throughout the process.
- All egg donors are screened by licensed professionals.
- Circle coordinates medical arrangements with the IVF clinic.
- Circle handles all travel arrangements and financial reimbursements to the egg donor.

# We help you find the *perfect* match

Circle's egg donors are bright, young women who desire to help others grow their families. They are proud of their decision to donate their eggs. Our donors come from a variety of backgrounds and ethnicities, from across the country. But they all share one thing: their passion for family, and family-building.

Circle offers three types of match options: **Known, Semi-Known and Anonymous**. It's important to understand each of them so you can make an informed decision with which type you're most comfortable.

---

## Known Egg Donation

Circle stands out from other agencies in its ability to provide known matches. It is the most open form of egg donation, where the intended parents and egg donor exchange contact information and can meet. This provides an avenue for the parties to maintain future contact, especially for updated medical information. Circle promotes known donation because we believe it is important for the child's healthy sense of identity to have knowledge of their conception story, as well as access to their genetic information.

---

## Semi-Known Egg Donation

This match option offers limited shared information. The intended parents and egg donor may choose to have contact via Skype, in-person, email, or phone, but actual identities are kept confidential. This is a way for the parties to get to know each other more, while still preserving anonymity.

---

## Anonymous Egg Donation

With an anonymous match, there is no contact between the intended parents and the egg donor. All information, during the cycle and in the future, is exchanged through Circle.

## Our egg donor screening process

Circle egg donors will complete an in-depth profile that asks for the egg donor's biographical information, health and family history, education, and career path information; she will also provide photographs and a video. Once selected, the egg donor is further evaluated by one of Circle's licensed social workers and she completes a psychological evaluation conducted by a licensed psychologist. The egg donor also attends a medical screening with your IVF clinic where she will complete genetic testing, among other things.

# Taking the first step

If you're ready to move forward and learn more about **becoming a parent through egg donation**, the first step is to schedule a complimentary consultation with us.

We'd love to meet with you and hear your story.

The consultation will also educate you about Circle's egg donation program, including:

- Egg donor screening
- Matching
- Different types of egg donation (known vs anonymous)
- IVF
- Legal costs and more

Our consultations take place virtually, and we can work with your schedule.
