## International Surrogacy Agency

### WHY OUR SURROGATES ARE THE BEST

Your surrogate will be carrying, and caring for, your child through the pregnancy. It is essential that we make sure that each and every surrogate working with Delivering Dreams meets the strictest requirements and receives the highest level of care and support.

Our agency conducts an enormous amount of legwork ahead of time, making the surrogacy experience more successful, saving time and eliminating issues before they arise.

Before a surrogate profile is even sent to you for consideration, they have been carefully vetted psychologically and physically. All our potential surrogates must be between 20-36 years of age and have had a successful, healthy, problem-free pregnancy. After meeting those requirements, **only 1 out of every 30 of applicants are accepted into our surrogacy programs.**

To be considered for our program, surrogate must pass:

- Extensive interviews
- Psychological screening
- Criminal background check
- Home visit – we want them to have a stable, safe and healthy living environment
- Pregnancy and family health history - medical record review by a medical professionals
- Medical screening and
- Drug screening family history

To ensure the very best choice of surrogates, we compensate our surrogates well. Surrogates receive monthly stipends for nutritious food and clothing and approximately \$15,000 after delivery. This may seem extremely low compared the US, however within the context of the Ukrainian economy, this equals 3-5 times the average annual salary.

International Surrogacy Agency

**OUR SURROGATES ARE THOROUGHLY TESTED BEFORE THEY ARE OFFERED TO YOU**

**Most agencies and medical facilities wait until after you choose a surrogate and then test. We believe you should only be offered surrogates that have passed our rigorous medical testing, which includes all the following:**

### **STAGE 1 OF OUR SCREENING**

- Blood type and Rh (identified by method of gel agglutination test with help of identification cards)
